Sustainability is everyone's responsibility

Sustainability has been an integral part of SCA and our hygiene operations for many years, now we bring this to the Essity business model and our strategy for growth and value creation.

All around the world, Essity is involved in sustainability initiatives and aggressive goals based on our core values: respect, excellence and responsibility.

Holistic sustainability is infused into everything we do; from transparent and responsible fiber sourcing, efficient regional transportation, third-party certified products, innovative dispensers with built in usage reduction, to sustainable end of life disposal options with compostable products. Rest assured that by choosing Essity and the Tork brand of hygiene products, you are making a sustainable choice.

Putting sustainability to work

We believe sustainability isn't a success until it supports and adds value to your business in practice. That's why we work hand in hand with you to identify needs and develop products and services that make your business better.

Environmental attributes and product certifications

Tork is a leader in offering responsible products. Throughout this catalog, products with certain attributes or third-party certifications are identified in the specification charts with the following symbols.

ECOLOGO® certified

ECOLOGO is one of North America's most widely recognized and respected certifications of environmental leadership. By setting stringent, multi-attribute, environmental performance standards across a wide variety of product types, ECOLOGO helps you identify, trust, buy, and sell environmentally preferable goods and services. Products are certified for reduced environmental impact. To view specific attributes evaluated, visit www.ul.com/el. ECOLOGO Certified Tork products are certified to UL 175 standard, Sustainability of Sanitary Paper Products.

Forest Stewardship Council® (FSC®) certified

FSC (www.fsc.org) certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. FSC Chain-of-Custody certification traces the path of products from forests through the supply chain. Our U.S. tissue manufacturing sites are certified with FSC Certificate Code TT-COC-002080 and License Code FSC-C003255. (Middletown, OH site certification in progress)

Green Seal™ certified

Green Seal (www.GreenSeal.org) is an independent non-profit organization that is dedicated to safeguarding the environment and transforming the marketplace by promoting the manufacture, purchase and use of environmentally responsible products and services. Green Seal certified Tork products fall into the following 2 categories:

- GS-1: This product meets Green Seal™ Standard GS-1 based on chlorine-free processing, energy and water efficiency, and content of 100% recovered material with a minimum of 50% post-consumer material for towels and napkins, 25% post-consumer material for bath tissue.
- GS-41: This product meets Green Seal™ Standard GS-41A based on effective performance and protective limits on VOCs and human & environmental toxicity.

Compostable

Certified by the Biodegradable Products Institute (www.BPIworld.org), or an independent verification from a composting facility, all of our Universal and Advanced Tork napkins, including custom print, are certified as compostable in municipal or industrial aerobic facilities. We also have independent verification from a commercial composting facility that all Tork towels marked with this symbol will effectively break down in their composting process.

EPA CPG program compliant

Many Tork products meet the requirements the United States Environmental Protection Agency (www.epa.gov) Comprehensive Procurement Guidelines (CPG) program that has set for the minimum amount of post-consumer waste to be used in recycled products.

- Hand Towels contain a minimum of 40% post-consumer fiber.
- Facial Tissue contain a minimum of 10% post-consumer fiber.
- Bath Tissue contain a minimum of 20% post-consumer fiber.
- Napkins contain a minimum of 30% post-consumer fiber.
- Wipers contain a minimum of 40% post-consumer fiber.

Some products without this symbol may also be EPA CPG program compliant. Contact your Tork Sales Rep for details.

Made from 100% recycled material

Almost 1,000,000 tons of recycled paper (of which more than 600,000 is post-consumer fiber) is used each year to make our recycled Tork products in North America.

HACCP International

HACCP International (haccp-international.com) is a leading food science organization specializing in the HACCP food safety methodology and its application within food and related industries. HACCP International operates a world-renowned product certification scheme - certification of food safe equipment, materials and services - confirming a product's suitability for use within food businesses that operate to the world's highest standards.

Bureau of Chemical Safety, Food Directorate

In support of Health Canada's (www.hc-sc.gc.ca) mission to help Canadians maintain and improve their health, the Food Directorate is the federal health authority responsible for establishing policies, setting standards and providing advice and information on the safety and nutritional value of food. The Bureau of Chemical Safety is responsible for policy, standard setting, risk assessment, research and evaluation activities with respect to chemicals in foods in Canada. The primary objective of the work is to ensure that chemicals are not present in foods at levels that would pose an unacceptable risk to health. Tork wiper and skincare products marked with this symbol in this catalog have been reviewed by Health Canada and given a "letter of no objection" stating that the agency sees no reason to object to their use in food processing facilities provided that conditions listed in the "letter of no objection" are met.

National Sanitation Foundation® certified

NSF International (www.nsf.org) is an independent, not-for-profit organization that provides standards development, product certification, auditing, education and risk management for public health and the environment. Manufacturers, regulators and consumers alike look to NSF International for the development of public health standards and certification that help protect the world's food, water, health and consumer products.

- E1 Rated: Handwashing product, product is acceptable as a hand washing compound for use in official establishments operating under the Federal meat, poultry, shell egg grading, and egg products inspection programs. Should not come into contact with food. When used as directed, should not transfer odor or fragrance from hands to food.
- E2 Rated: Handwashing and sanitizing products, product is acceptable for use as a handwashing and sanitizing compound for use in and around food processing areas. Should not come into contact with food.
- E3 Rated: Hand sanitizing products, product is acceptable for use as a hand sanitizer. Product should be used only after washing and rinsing hands.
- P1 Rated: This product is acceptable for use as a Wiper (P1) in and around food processing areas. The product must only be used in such a manner as to ensure it will not have direct contact with food or potable water.

Aerospace Material Standard (AMS 3819C)

This standard was developed by the Society of Automotive Engineers (SAE) a U.S. based globally active professional Association. The AMS was developed as an alternative to the BMS (Boeing Material Standard).

Boeing Manufacturing Standard (BMS 15-5G)

This standard was developed by Boeing for need of standardization of parts used in aircraft production. There are many different BMS standards. This Standard (15-5G) is used specifically for wipers and cloths.

Packaging that's easier to handle

Tork Easy Handling® product packaging is a patented assortment of innovative and ergonomic solutions to ease the workload of facility staff, while saving time and money.

The smart design of the **Tork Easy Handling® Carry Box™** and **Tork Carry Pack™**, noted in the product charts within this catalog, means that:

- Boxes are easy to carry, thanks to convenient, comfortable grips
- Boxes are easy to open without a knife, thanks to taped sealing
- Carry bags are easier to hold, thanks to convenient handles
- Used, flattened boxes are easy to carry in large numbers

Tork EasyCube Intelligent Facility Cleaning System

Tork EasyCube® Intelligent Facility Cleaning incorporates the Internet of Things to enhance the efficiency of managing cleaning, staff and ordering supplies. The system combines sensor technology with connected devices, software tools and services to transform cleaning operations into a fact-based science for more informed decisions, user satisfaction and budget savings.

Look for this icon throughout the catalog to identify Tork EasyCube compatible products

Quality tiers make it easier to find what you need

Our Tork refill products come in three quality tiers . . .

Premium

Premium is our top quality tier, characterized by exceptional softness and quick absorption. The products are recognized by their superior look and feel, as well as their style and high performance.

Advanced

Our Advanced range effectively balances cost and performance. These high-performance products are soft, attractive and reliable.

Universal

Our Universal range meets the basic needs in a washroom, offering good value for money and low maintenance.

Easy pairing of dispensers and refills

Refer to the Tork System Identifiers to seamlessly match dispensers and product refills. System Identifiers consist of a letter (key below) and a number. They are clearly marked on all Tork packaging and throughout this catalog.

H = Hand Towels

M = Centerfeed

T = Bath Tissue

S = Skincare

N = Napkins

W = Wipers

V = Seat Covers

Tork Value-Added products and dispensers

Tork Value-Added systems help you improve hygiene, enhance image, reduce usage and waste, and protect the environment. Controlled consumption dispensers provide source reduction and reliable, high-capacity dispensers lead to lower labor and maintenance costs. Innovative one-at-a-time dispensing eliminates cross contamination and keeps people healthy.

Image, Elevation, Xpress, Intuition, Matic, Xpressnap, and Performance signify the very best Tork has to offer. These attractive, contemporary dispensers are the epitome of style and luxury. Dispensers are available in different colors to complement many decors.

Our Value-Added systems provide a range of quality refills from our softest leaf-printed *Premium* products to our most sustainable natural *Universal* products delivering the flexibility to address a variety of customer needs.

Our *Premium* skincare products and task-based specialty wipers offer top-of-the-line solutions. *Premium* and *Advanced* multifold, c-folds, facial tissue, toilet seat covers, and conventional bath tissue round out the Value-Added assortment for our discriminating customers.

Tork Standard products and dispensers

Tork Standard products deliver quality and reliability at an affordable price. Customers will have dispensers they can count on and a range of *Universal* and *Advanced* refill products to choose from, including 100% recycled, third-party certified products that help them lighten their environmental footprint.

Matic Hand Towels – H1 System

Value-Added

Throughout the roll and folded towel sections, you will see products that are marked as **“Structured Towel”**. Structured towel products absorb water quickly and have greater capacity than conventional towels.

Tork Wipers

Identify the task, find the right product

Finding the right product for your needs starts with looking at what job it does. To help you, we have defined the following tasks:

- Wiping

Wiping is picking up spills, soaking up liquids and picking up dirt and dust with a paper-based wiper.

- Cleaning

Cleaning is removing dirt and stains from surfaces, machines or tools with cloths that are dry or used together with water, solvents or detergents.

- Polishing

Polishing is creating a protected and shiny surface with the help of a cloth that applies polish onto the surface and is rubbed to obtain a good finish.

Our Tork Wipers are organized by these tasks and their associated colors on the following pages.

Tork Cleaning Cloths

have exelCLEAN® wiper technology to help you get cleaning tasks done more efficiently and professionally than rags and rental cloths.

Thanks to our patented foam-spun technology which creates a unique internal structure, Tork cleaning cloths give you a faster and more hygienic cleaning result.

40%
solvent reduction
