Best in Class, Without a Hall Pass

Safco has been part of education since saddle shoes were in style. And since you might still be using some school desks from that era, we're introducing Learn by Safco®. Learn by Safco is a comprehensive collection of our favorite Safco products designed to enhance your educational environment at a mid-market value. At Learn by Safco, we're solving your educational furniture equation from flexible seating to paper organization – one innovative product at a time.

CLASSROOM	4-8

Image Features: **Sync™** Tables | **Cha-Cha™** Tables | **Zenergy™** Ball Chairs | **Twixt™** Seating | **Reve™** Chairs | **E-Z Stor®** Storage

Being the favorite is always a good thing. Learn by Safco has a wide variety of products designed to create flexible and active learning spaces for all educational environments to put us in good standing with any teacher. These products keep classes moving whether it's through bouncing, reconfiguring or preparing for the ever-evolving classroom of the future. Gone are the days of rows of desks and chairs. Learning has evolved to need tables, flexible seating and height-adjustable desks all on casters to ensure a better way to teach and learn.

Today's classrooms are filled with hands-on lessons that build skill sets for every student's future. Makerspaces, science labs and engineering areas need product solutions that are durable enough for these hands-on classes, yet easy enough to reconfigure when the bell rings. Mobile workstations and lightweight seating allows every teacher to become a master in the art of classroom design even if test tubes and robots are more their field of study.

Create a space where students can relax, study or work on a group project. Common spaces bring students together and allow them to learn where and how they want. Create an inviting area that can evolve with student needs by offering flexible seating, tables in a variety of sizes and supporting solutions like mobile carts to easily move supplies. And don't forget to bring in colors to help students focus or simply show a little school pride – ensuring an A with students and staff alike.

Hushed voices and encyclopedias have turned into interactive classes and technology driven research. Learn by Safco has the products you need to create a media space that can easily be reconfigured, but also has a variety of furniture options for the students to choose how they want to learn. Maybe it's a standing-height table with bistro seating, or a sitting-table with a whiteboard surface with active seating – either way we have you covered.

This is where it all begins. The yearly plans, prep-work for projects and approving those early dismissal slips. For the hardworking people that keep our schools going on a daily basis, we have products just for you. Desktop organizers, desking solutions, comfy task chairs and so much more. We'll bet you a teacher's lounge that somewhere, right now in your school, you need at least one trash can.
