VALUE BEYOND THE BOX

Value Services

From enhanced collaboration to increased document security, Brother Value Services can help your customers streamline processes, reduce operational and device running costs and create efficiencies required for long-term success.

These include:

- Translation Services to meet customer needs
- Special Solutions Team for product customizations
- Secure Print+ for enhanced security
- Custom User Interfaces for a fully customized experience
- Barcode Utility to streamline workflows
- Document workflow services for digital signatures, document approval and document review

Security Solutions

To help protect against print security threats and maintain compliance, Brother's business MFPs, printers and scanners offer three layers of defense – one at every critical level:

- Network Security: Eliminate outside threats while supporting the latest protocols and enabling device sharing
- Device Security: Limit device access at the group, individual and activity level
- Document Security: Enable users to protect sensitive or confidential data sent over networks

Value Print Program

The Brother Value Print Program provides discounts on Brother Genuine Supplies and a free two-year limited warranty upgrade on select hardware models. Additional benefits include:

- Ultra-Low Cost Per Page (CPP) Expense: With discounts on Brother Genuine Supplies, VPP helps to drive CPP among the lowest in the industry.
- Device Uptime: Device unification with Brother branded equipment allows for readily available replacement parts. "Downtime" is virtually eliminated, increasing employee productivity.
- Customer Network Security and Integrity: With VPP, there is no requirement to load third-party software on the customer's network, reducing the need for on-site visits.

◆ Approx. toner cartridge yields in accordance with ISO/IEC 19798 (letter/A4)

^ Maximum number of scanned pages per day can be used to compare designed durability between like Brother products. For maximum product life, it is best to choose a scanner with a daily duty cycle that exceeds your requirements.

~ The recommended range of monthly printed pages to achieve the best possible performance and printer life. Printers are intended to handle occasional usage beyond this range with little or no effect. Consistently printing above the recommended print volume, however, may adversely affect the print quality or life of the machine. It is always best to choose a printer with an appropriate recommended print volume to allow for any anticipated increase in printing needs.
