Meet a local MAS 75  
Schedule vendor with a  
World Class Solution.

Contract Holder

## Who are we?

Established in 1977, Independent Stationers is an office products dealer group in the U.S. with \$3 billion in combined sales. Independent Stationers is a national office products cooperative with a network of hundreds of independent dealers and we are also supported by two of the largest office products wholesalers in the country.

Along with TriMega Purchasing Group, EPIC Business Essentials was formed to provide not only the robust order platform, but be most progressive dealer group in the U.S. with over 100 authorized dealers trained and certified to represent the GSA MAS 75 contract and the first consortium to hold a contract of this type in the office products industry. We are a certified small business, each of our dealer members are small businesses and many also hold other socio-economic designations including women-owned, veteran-owned and minority-owned.

## A Powerful National Network to Serve You Better

We're armed with 31 fully stocked warehouses all across the nation. It's an impeccable distribution network that ensures your order is correct and delivered at lightning speed. Between our local independent dealer network and our comprehensive distribution network, you can do business with a local, independent company who takes the time to get to know you, but has the muscle of a world-class operation you can trust to meet your every need. You will receive competitive negotiated pricing, the highest standards of customer service and fast delivery on thousands of office supplies.

## Buy Local and Strengthen Your Economy

Because our dealers do business right in your community, one thing is certain – your business matters to them and their success depends on the level of service they provide you. The result is consistent, personalized attention. Plus, together, we're keeping money and jobs in our communities. Local businesses employ the majority of individuals in our country and in your community, so they provide the most jobs to residents. Several studies have shown that the majority of these residents, in turn, funnel money back into the local economy. And since we are a country comprised of many local economies, this ripple effect strengthens the national economy too.
