SCHOOL DISTRICTS & PRIVATE SCHOOLS HAVE COVID FEDERAL FUNDING to 2024

ESSER/EANS FUNDING FOR CLASSROOM FURNITURE

Along with school-wide repairs to improve infrastructure, schools can invest in furniture to redesign the classroom experience. These changes can help prevent the spread of illness in the classroom and improve opportunities for collaboration and social-emotional learning, assisting in remediating learning loss

- Upgrade from porous laminate surfaces to easy to clean solid plastic
- Replace table setups to more flexibility: from collaborative to independent study
- Create flexible learning environments to be better prepared for future outbreaks
- Ability to have individual student supply totes from storage cabinet to slide under desk surface. This reduces cross contamination of using bulk supplies.

Compliant with all purchasing contracts !

Category	Examples of Authorized Expenditures
MRO Supplies	☉ Purchasing supplies to sanitize and clean facilities
Facilities	☉ Repairing and improving of school facilities to reduce risk of virus transmission and exposure to environmental health hazards (e.g., reconfiguring classrooms, furniture) ☉ Improving indoor air quality (including HVAC systems, filtering, purifications, fans, control systems, and window and door repair or replacement)

So **y5** ?

Research studies have proven that the most effective collaboration grouping size for a K-12 classroom setting is **FIVE**. The following research references show supportive proof for the correct grouping size of **FIVE**.

Progressive Group of 5

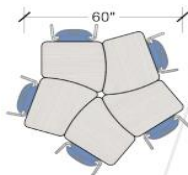

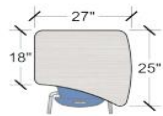

In a group of 5, eye contact through cross directional positioning plays a major role in how all students will interact with each other

y5 FLOW-PENTE-IDEA

y5

Flow Desk

The Alumni Flow Desk was developed for traditional and progressive teaching styles to help implement 21st Century Learning concepts into the classroom. In its ideal group configuration of 5, it can be rearranged to maximize the use of limited space commonly observed in today's classrooms.

Accelerator Active Learning Centers: TEACHERS

AALC

Pneumatic Teacher Desk

Accelerator Active Learning Centers: STORAGE

Alumni TOTES

Plastic Storage **TOTES** are a huge benefit of Alumni's Accelerator Active Learning Centers.

Now **TOTES** can be carried from the storage cabinet and slid into place under the Student Desk or Table worksurface ... then returned to the storage cabinet for safe keeping.

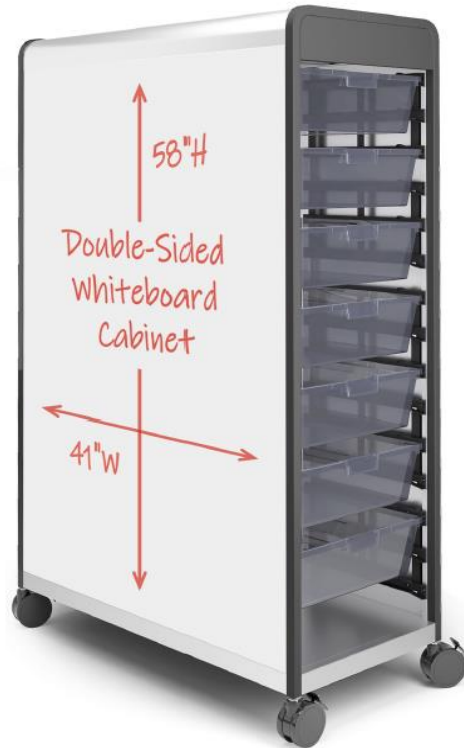

... **Even locked** if security is a requirement.

This allows the desk to be shared by different classes, while protecting each student's personal tools & work.

Swap Alumni Totes from storage to desk or table

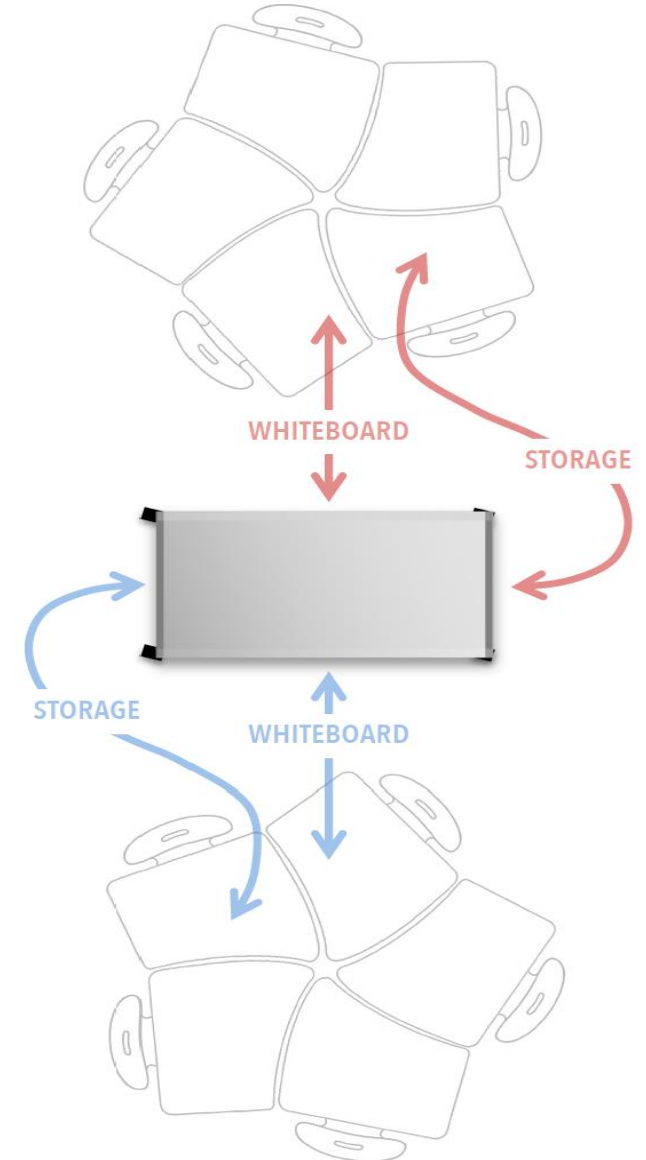

Individual student supply totes from storage cabinet that slide under desktop

Mississippi State Contract

Cooperative Purchasing Programs State Contracts

Alumni holds multiple manufacturer held and dealer assigned national contracts that are for use by our Registered Authorized Dealer partners throughout the country. These contracts are flexibly priced to provide competitive pricing as needed while still maintaining solid margins when available.

15 Year Limited Warranty

- Alumni Classroom Furniture Inc. warrants all steel fabricated components of its frames to be free from defect in materials and workmanship under normal use, service and handling for a period of fifteen (15) years. This warranty does not cover misuse or abuse of the product.
- Moving mechanisms are warranted for five (5) years against manufacture defect. Regular maintenance and lubrication is required for moving mechanisms.
- Chair shells are warranted for five (5) years against manufacture defect. Alumni will repair or replace the product determined to be covered under warranty with an equal or current model.
- Laminated tops are covered for a two (2) year period against manufacture defect causing delaminating.
- Alumni Classroom Furniture Inc. reserves the right to inspect the product in question to assess the cause of damage.
